Projects

Duration : Dec - 2023 to Feb - 2024

Tech Blog Django Project

Project Name : Tech Blog
Laguage Technologies used:
Front-End : HTML, CSS, Bootstrap
Back-End : Python
Web Framework : Django
IDE : VS Code

Description :

The project involved the development of a fully functional blog website using the Django framework. The website allows users to create, edit, and delete posts, as well as access a registration and login page. It was developed using a combination of Django for the back-end and HTML, CSS, and Bootstrap for the front-end

VTU React Project

Project Name : VTU
Laguage Technologies used:
Front-End : HTML, CSS, Bootstrap, JavaScript, React.js
IDE : VS Code

Description :

The VTU User Interface project was developed using React.js. The website enables users to view their results and download admission application forms. This website utilized an API (JSON server) to dynamically fetch student results. It was developed using fully front-end HTML, CSS, JS, Bootstrap, and React.
